FOREIGN NEWS ON APPLES

THE HAMBURG AND COPENHAGEN APPLE MARKETS

quantities of American apples offered for sale on the Hamburg auction Tuesday, November 25, were much larger than at this time last year, according to a cable from Fred A. Motz, Fruit Specialist in Europe for the Foreign Service of the Department of Agriculture. The following quantities of American boxed and barreled apples were offered on the Tuesday auction this month:

	: Nov. 4	: Nov. 11	: Nov. 18	: Nov. 25
Barrels .....	: 42,000	: 24,000	: 30,000	: 26,000
Boxes .....	: 30,000	: 42,000	: 43,000	: 35,000

Prices on the whole for barreled and boxed apples have been well maintained during the four weeks under survey, although boxed Washington Jonathans have shown a slight downward trend. Mr. Motz reports that the market was active at this week's prices. Most of the offerings of Oregon Newtowns were withdrawn this week owing to low prices.

Copenhagen prices appear to be on slightly lower levels than those at Hamburg. Prices have been steady during the month of November. The apple and pear crops in the Scandinavian countries particularly Sweden, were larger this year than for several years. For this reason the Copenhagen market is not as active as it is likely to be when the domestic crops are cleaned up.

Prices paid for American fruit at Hamburg
